| Brief report on achievement by student- One of our team members suggested this week that we build our project on the Microsoft 365 platform. We made a Microsoft 365 account, registered it as a product development company, and gave it the name "Stormborn Softwares". We can use all of Microsoft's product-based services with the aid of this Office 365 account. Major services including Teams, Planner, Copilot, Word, PowerPoint, and all other Office 365 services are included in this. Additionally, all files and products are automatically transferred to the cloud. | | | |
